

Key Stage 1 Summer Term 2026

PE/GAMES

Striking, Fielding and Athletics

The children will build on skills by taking part in activities to improve agility, balance and coordination. They will be taught batting and fielding techniques as well as developing coordination and control in preparation for athletics and team sports.

ENGLISH

Fergal is Fuming Zim Zam Zoom

Using dragons and mythical creatures as inspiration, the children will develop their own characters, settings and plots and use these to help them form their own imaginative stories. After reading a range of poems and exploring alliteration and similes, the children will write their own poems based on the world around them.

HISTORY

Milton Keynes

The children will use a range of primary and secondary sources to explore how Milton Keynes has developed over time. They will use timelines to order significant events chronologically and identify the impact of these on the local area.

SCIENCE

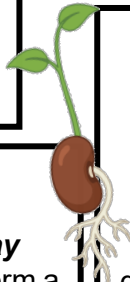

Animals, Including Humans

This term, the children will learn about a range of familiar animals, discover the names of key body parts, and have fun sorting animals into groups.

Plants

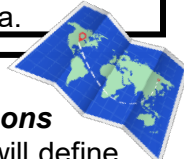

The children will learn what each part of a plant does and what it needs to grow well. They will plant their own runner bean and enjoy watching it germinate and begin to grow!

GEOGRAPHY

Geographical Comparisons

Using a range of sources, we will define and identify physical and human features and then compare the landscapes of England and Australia.

MUSIC

Friendship

Reflect, Rewind and Replay

The children will sing and perform a variety of songs inspired by friendship such as "You've got a friend in me" by Randy Newman.

They will create a class composition using a glockenspiel as an accompaniment to their voices.

ART

Monochrome Contrasts Joseph Kosuth

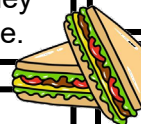

We will explore and compare different works of art by Joseph Kosuth before experimenting with tones. The children will use watercolours to create and design their own monochrome art work.

DT

Making Sandwiches

The children will explore a variety of sandwich ingredients, then design and make their own sandwich. Afterwards, they will review what they enjoyed and what they would change next time.

COMPUTING

We are animators

The children will learn how animation works before filming, reviewing and editing their own stop-motion animation.

We are zoologists

The children will collect, record, organise and present data gathered from our environment.

RE

What do people believe about God, people and the natural world?

We will think about the ways in which Christians and other faiths worship and what it means to them. We will also find out what they can learn from religious leaders.

PSHE

Health and Wellbeing

The children will discuss why sleep is important and explore a variety of ways of keeping healthy. They will name different body parts and learn about getting older. The children will look at safety in different environments as well as reacting to emergencies including First Aid.
